SUMMARY

Results-oriented Full Stack Web and Mobile Developer with 1 year of hands-on experience in designing, developing, and deploying scalable applications using JavaScript, TypeScript, React.js, React Native, Node.js, Express.js, Nest.js, MongoDB, and PostgreSQL. Skilled in building dynamic user interfaces, RESTful APIs, and backend services with a focus on performance, security, and clean architecture. Experienced in cross-platform mobile app development and responsive web design. Strong understanding of agile development, version control (Git), and API integration. Passionate about delivering end-to-end solutions that enhance user experience and drive business value.

EXPERIENCE

ASSIST360 - SINGAPORE

(October 2024 - October 2025)

Junior Full Stack Developer

- Developed and maintained responsive web and mobile applications using HTML, CSS, JavaScript, TypeScript, React.js, and React Native, ensuring seamless user experiences.
- Built and optimized RESTful APIs and backend services with Node.js, Express.js, and Nest.js, and managed PostgreSQL and MongoDB databases for scalability, performance, and data integrity.
- Collaborated with cross-functional teams to gather requirements, plan features, and deliver end-to-end full stack solutions, following Git-based workflows and CI/CD pipelines.
- Ensured high-quality, maintainable code through unit testing, debugging, performance optimization, and comprehensive documentation aligned with industry best practices.
